

**AMENDMENTS TO THE SPECIFICATION**

**Please replace the paragraph on page 6 beginning with “Referring to Figure 3 ...” with the following amended paragraph:**

Referring to Figure 3, another masking assembly 1B is illustrated. The masking assembly 1B includes a plurality of modified shielding parts 6B. Each shielding part 6B includes a coating layer 8 that covers the linear elements 5. The coating layer 8 seals a gap between each two adjacent linear elements 5. Thus, the vapor deposition material (unshaded arrow) [[do]] does not pass the gaps of the linear elements 5. The resulting masking portion is designated at 4B.
